Eric G. Wold  
Vice President  
P.O. Box 890028  
Houston, Texas 77289

Dear Mr. Eric G. Wold:

The City of Houston (City) is in receipt of your letter dated January 19, 2020 regarding Florida Traffic Control Devices, Inc.'s concern about the RFP due date for the Houston Roadway Flood Warning System (HRFWS) being February 1, 2021 and your request to extend the date to March 31, 2021.

Based on the number of requests received for a time extension the City will extend the Proposal due date to March 31, 2021. However, the Planned Substantial Completion date of December 23, 2023 will not change at this time. Addendum No. 2 will soon follow reflecting the Proposal due date change.

If you have any questions or comments, please feel free to contact me at (713)881.3079.

Cordially,

Stephen Wright, CPM

Senior Project Manager

Houston Public Works

Transportation and Drainage Operations

Re: 2017 TIGER Grant, Houston Roadway Flood Warning System (HRFWS), RFP No. 08142020

Dear Mr. Wright and Selection Committee Members,

We appreciate the City's extension of the above-mentioned RFP to February 1, 2021, and understand the City's reticence to extend the RFP beyond that date. However, due to unprecedented global conditions and restrictions, we have determined that we are unable to adequately quantify many of the project's risk components and cannot properly determine the preliminary technical designs necessary to complete our comprehensive cost proposal within that short timeframe. We, therefore, respectfully request that the City extend the RFP response date to March 31, 2021. This would give adequate contiguous preparation time as warranted for a project of this size and scope for proposers to develop quality proposals.

We respectfully request that the City respond to this request no later than Friday, 01/22/21.

Thank you for your consideration and please do not hesitate to contact me at [egw@tcd.cc](mailto:egw@tcd.cc) or 281.992.3030 in you have any questions or need additional information.

Sincerely,  
FLORIDA TRAFFIC CONTROL DEVICES, INC.
