Dear Mr. Seth Thomas:

The City of Houston (City) is in receipt of your letter dated January 6, 2020 regarding TransCore's concern about the RFP due date for the Houston Roadway Flood Warning System (HRFWS) being February 1, 2021 and your request to extend the date to March 1, 2021.

At this time the City is unable to honor your request to extend the RFP due date to March 31, 2021. The current due date is the result of a previous extension request regarding the original December 30, 2020 Proposal due date. In order to achieve the project's planned Substantial Completion by the December 23, 2023 date it is important that the Proposal due date remain February 1, 2021.

If you have any questions or comments, please feel free to contact me at (713)881.3079.

Cordially,

Re: 2017 TIGER Grant, Houston Roadway Flood Warning System (HRFWS), RFP No. 08142020

Mr. Wright,

Thank you for posting the latest Q&A responses on 12/31/2020. Considering the responses, and technical design consideration uncovered during recent site visits, TransCore would like to respectfully request a time extension to March 1st, 2021. This extension would allow our team to provide a more comprehensive response that will ultimately benefit the HRFWS project.

Feel free to contact me directly if you have any questions or concerns.

Regards,
